## Testimonial for Computerwerx™

---

Computerwerx™ have been looking after my IT needs for several years. Whether it's a new server, network issue to be resolved or Exchange Server needing to be configured the Computerwerx™ team are always ready to help.

The breadth of products and software they can work with is exceptional, and they are able to keep my many devices, printers and software applications humming along.

Charles Batt

A handwritten signature in black ink that reads 'Charles' in a cursive, flowing script.
