WHY WE LOVE COMPUTERWERX

I first met Sid 5 years ago while working for a business to which he provided IT support.

When I started my own company, I had no hesitation in contacting Syd to help us set up all our IT requirements. Now, 4 years down the track, Syd is still our go-to man for anything IT related.

They say you should never work with animals or children, and here at Structen, we feel the same about computers! We all have Syd on speed dial when things won't print, or something doesn't work, or something 'disappears'... and of course he waves his magic wand and fixes whatever needs to be done.

He handles all our office 365 subscriptions, email accounts, cloud backups, anti-virus, and procures any new equipment we need. Syd is fair, honest, and reliable, we would be absolutely lost without him.

If you need you need IT Support for your home or business, you can entrust it all to Computerwerx, then get on with the stuff your good at without having to worry about computer stuff. I would recommend Syd to anyone in a heartbeat.

Kind Regards

Lyndall Dordevic
Managing Director
